RESPONSE TO ELECTION REQUIREMENT WITH TRAVERSE

Commissioner for Patents
U.S. Patent and Trademark Office

Sir:

In response to the Examiner's Election Requirement of September 2, 2004, setting a one month period for response to extend until October 4, 2004 (October 2, 2004 being a Saturday), Applicants elect species B with traverse for the reasons expressed below. Claim 4 is considered to be "readable" on species B. Further, although no claims are presently considered by the Applicants to be generic to all species, Applicants submit that claim 4 is generic to (i.e., "readable" on) species B and species C.

As an initial matter, Applicants would like to express their appreciation to the Examiner for the courtesy of the telephonic interview held on September 20, 2004, in which Applicants' representative indicated that page 2 of the Election Requirement was missing. Further, Applicants appreciate the Examiner forwarding page 2 of the Election Requirement by facsimile on September 21, 2004, and by mail on September 23, 2004.

Applicants submit that Claim 4 is considered to be "readable" on (i.e., generic to) species B and species C. In this regard, Applicants note that the embodiment shown in Figure 3 (designated as species B by the Examiner) includes air cylinder 7, and that the embodiment shown in Figure 4 (designated as species C by the Examiner) includes motor 8. Further, claim 4 recites "an actuator such as an air cylinder and a voice coil motor". Accordingly, Applicants submit that claim 4 is readable on embodiments in which the actuator is an air cylinder (such as species B) and embodiments in which the actuator is a motor (such as species C).

Applicants respectfully traverse the Election Requirement. Applicants note that it would appear that the search for the species identified by the Examiner would be coextensive or at least significantly overlap. This particularly appears to be true with regard to claims directed to species B and C. That is, if the Examiner were to perform a search for the embodiment of species B, there would not appear to be a serious burden in continuing the examination of the embodiment of species C. Because at least the search of these species

would be coextensive, it would not be a serious burden on the Examiner to examine all claims directed toward species B and C. For this reason, and consistent with office policy as set forth in M.P.E.P. § 803, Applicants respectfully request that the Examiner reconsider and withdraw the Election Requirement.

For the foregoing reasons, it is submitted that the Election Requirement in this application is improper and it is respectfully requested that it be reconsidered and withdrawn. This is particularly requested with regard to claims directed to species B and C.

Should there be any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Toshinori MIMURA et al.
